

PEMROGRAMAN BERORIENTASI OBJEK

LAPORAN INPUT BIODATA MAHASISWA

TUGAS 11

NAMA : IRMA NURKHOFIFAH M.

STAMBUK : 13020180096

KELAS : B2

1. Membuat database beserta tabel

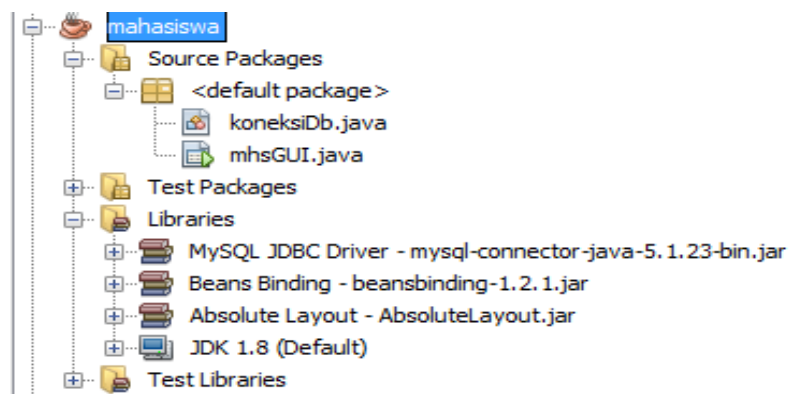

Database : mahasiswa

Table : tabel_mahasiswa

```
create database mahasiswa;  
use mahasiswa;  
create table tabel_mahasiswa(  
  nomhs bigint primary key,  
  nama varchar(30),  
  jurusan varchar(15),  
  prodi varchar(20));
```

Result Grid						
Filter Rows:		Export:		Wrap		
	Field	Type	Null	Key	Default	Extra
►	nomhs	bigint(20)	NO	PRI	NULL	
	nama	varchar(30)	YES		NULL	
	jurusan	varchar(15)	YES		NULL	
	prodi	varchar(20)	YES		NULL	

2. Membuat projek pada NetBeans

3. Membuat koneksi database

Class : **koneksiDb.java**

```
import java.sql.Connection;
```

```
import java.sql.DriverManager;
```

```
import java.sql.SQLException;
```

```
public class koneksiDb {  
    private static Connection mysqlconfig;  
    public static Connection configDB()throws SQLException{  
        try {  
            String url="jdbc:mysql://localhost:3306/mahasiswa"; //url database  
            String user="root"; //user database  
            String pass=""; //password database  
            DriverManager.registerDriver(new com.mysql.jdbc.Driver());  
            mysqlconfig=DriverManager.getConnection(url, user, pass);  
        } catch (Exception e) {  
            System.err.println("koneksi gagal "+e.getMessage()); //perintah menampilkan  
            error pada koneksi  
        }  
        return mysqlconfig;  
    }  
}
```

4. Membuat desain form inputan (JFrame)

The screenshot shows a Java Swing window titled "BIODATA MAHASISWA". The window contains the following elements:

- Four text input fields labeled "NIM", "NAMA", "FAKULTAS", and "PRODI". The "PRODI" field is a dropdown menu with "Teknik Informatika" selected.
- Two buttons labeled "SIMPAN" and "REFRESH" below the input fields.
- A table with 4 columns labeled "Title 1", "Title 2", "Title 3", and "Title 4". The table has 4 empty rows.
- Two buttons labeled "EDIT" and "HAPUS" below the table.

The window has a standard Java Swing look and feel with a title bar and a menu bar.

5. Source code form yang sudah dibuat

mhsGUI.java

```
import java.sql.Connection;
import javax.swing.JOptionPane;
import javax.swing.table.DefaultTableModel;

public class mhsGUI extends javax.swing.JFrame {
    public mhsGUI() {
        initComponents();
        load_table();
        kosong();
    }
    private void load_table(){
        // membuat tampilan model tabel
        DefaultTableModel model = new DefaultTableModel();
        model.addColumn("No");
        model.addColumn("NIM");
        model.addColumn("Nama");
        model.addColumn("Jurusan");
        model.addColumn("Prodi");

        //menampilkan data database kedalam tabel
        try {
            int no=1;
            String sql = "select * from tabel_mahasiswa";
            java.sql.Connection conn=(Connection)koneksiDb.configDB();
            java.sql.Statement stm=conn.createStatement();
            java.sql.ResultSet res=stm.executeQuery(sql);
            while(res.next()){
                model.addRow(new
Object[] {no++,res.getString(1),res.getString(2),res.getString(3),res.getString(4)});
            }
            tab1.setModel(model);
        } catch (Exception e) {
        }
    }
    private void kosong(){
        txtnim.setText(null);
        txtnama.setText(null);
        pro.setSelectedItem(this);
        txtfak.setText(null);
    }

    /**
```

```

Run program

1. Penginputan

Kita menginput biodata yang diminta lalu klik **simpan** >> **ok**, setelah tombol **ok** diklik maka data otomatis muncul pada table dibagian bawa. Dan data yang diinput juga otomatis muncul dalam system database.

BIODATA MAHASISWA

NIM: 13020180096
NAMA: Irma Nurkhofifah
FAKULTAS: Ilmu Komputer
PRODI: Teknik Informatika

SIMPAN **REFRESH**

Message
Penyimpanan Data Berhasil
OK

BIODATA MAHASISWA

NIM:
NAMA:
FAKULTAS:
PRODI: Teknik Informatika

SIMPAN **REFRESH**

No	NIM	Nama	Jurusan	Prodi
1	130201...	Irma Nu...	Ilmu Ko...	Teknik I...

EDIT **HAPUS**

10 `select*from tabel_mahasiswa;`

Result Grid Filter Rows: Edit:

	nomhs	nama	jurusan	prodi
▶	13020180096	Irma Nurkhofifah	Ilmu Komputer	Teknik Informatika
*	NULL	NULL	NULL	NULL

2. Tombol “REFRESH”

Untuk memulai kembali inputan yang sudah diketik, di gunakan jika pada saat pengetikan terdapat kesalahan dan ingin mengulang penginputan dari awal.

The left screenshot shows the 'BIODATA MAHASISWA' form with the following data entered:

- NIM: 130201800966
- NAMA: Irma Nur
- FAKULTAS: Ilmu kOmputer
- PRODI: Teknik Informatika

The 'REFRESH' button is circled in red. Below the form is a table with one row of data:

No	NIM	Nama	Jurusan	Prodi
1	130201...	Irma Nu...	Ilmu Ko...	Teknik I...

The right screenshot shows the same form with all input fields empty. The 'REFRESH' button is highlighted.

3. Mengedit/mengupdate data yang sudah diinput

Untuk mengedit klik salah satu data yang ada pada yang ingin diedit >> klik **EDIT** pada bagian bawah >> data akan muncul pada form >> edit data >> klik **SIMPAN** >> klik **OK** Data tersebut juga kan terupdate pada system database.

The first screenshot shows the 'BIODATA MAHASISWA' form with the following data entered:

- NIM: 130201800966
- NAMA: Irma Nur
- FAKULTAS: Ilmu Komputer
- PRODI: Teknik Informatika

The 'EDIT' button is circled in red. Below the form is a table with one row of data:

No	NIM	Nama	Jurusan	Prodi
1	130201...	Irma Nu...	Ilmu Ko...	Teknik I...

The second screenshot shows the same form with the data from the first row of the table entered. The 'SIMPAN' button is circled in red.

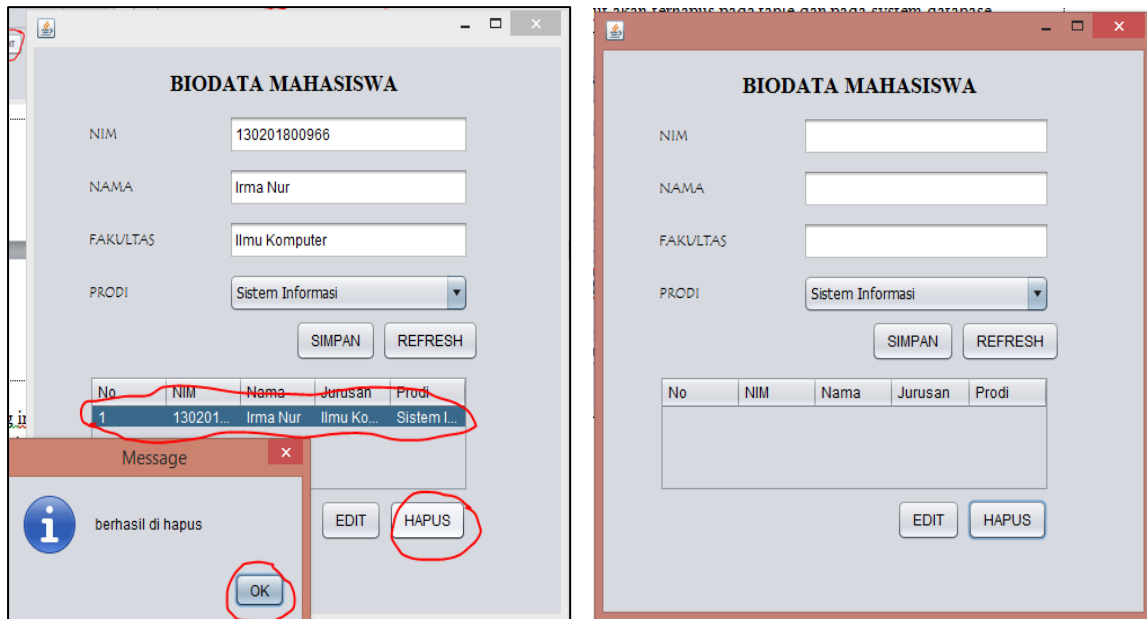

The third screenshot shows a message box with the text "data berhasil di edit" and the 'OK' button circled in red.

nomhs	nama	jurusan	prodi
13020180096	Irma Nurkhofifah	Ilmu Komputer	Teknik Informatika
NULL	NULL	NULL	NULL

nomhs	nama	jurusan	prodi
130201800966	Irma Nur	Ilmu Komputer	Sistem Informasi
NULL	NULL	NULL	NULL

4. Menghapus data

Klik salah satu data yang ingin dihapus pada table di bagian bawa >> klik **HAPUS** >> klik **OK**. Maka data tersebut akan terhapus pada table dan pada system database.

	nomhs	nama	jurusan	prodi
*	NULL	NULL	NULL	NULL

***note : field jurusan pada table_mahasiswa seharusnya adalah fakultas, mohon maaf karena ada kesalahan dalam pengetikan dan tidak sempat untuk diperbaiki**
